That's why a great text editor app is imperative to my every day workflow Without it, I couldn't do my job.. That being said, there's BBEdit, TextWrangler, TextMate, SubEthaEdit, skEdit, and probably dozens more.. Syntax Highlighting Colorize more than 50 pre-installed major languages like HTML, PHP.. You can "test" it as long as you want However, if the editor suits you, you should be fair and purchase it.. PHP is just text, so you're not going to find a text editor that only supports PHP.. With GVFS, supports SFTP, FTP, WebDAV, and SMB When considering text editor apps, the first thing I look for is cross-platform support. e828bfe731 <u>Deer Hunting Games For Mac Free Download</u>
